SP-Treat plus

- Supports Male Fertility & Hormones*
- Optimizes Sperm Quality*

SP-Treat Plus is a dietary supplement and an antioxidant-based fertility supplement that has been clinically shown to support all aspects of your sperm health (count, motility, morphology, concentration, vitality, and DNA integrity).

SP-Treat Plus can improve the chances of a pregnancy because it improves the health of sperm and helps balance men's hormones by maintaining testosterone levels in the blood. It contributes to the supply of men's health with important ingredients for male reproductive capacity. The specially developed formula contains high-dose vitamins, trace elements, amino acids, antioxidant vitaminoids, and other high-quality ingredients that are essential for the formation process of sperm and is ideally tailored to the needs of men.

SP-Treat Plus offers an approach to reaching your health and fertility goals with a comprehensive multivitamin to address nutritional gaps in your daily diet along with fertility-targeted ingredients such as Tribulus Terrestris, L-Carnitine Tartrate, L-arginine, L-Cysteine, L-Methionine, Glutathione, Taurine, Omega 3, Co-Enzyme Q10.

Recommended Dosage:

Take 3 capsules daily or as recommended by a healthcare professional. Use it for at least 2-3 months before expecting a significant alteration in hormone balance & fertility.

Tribulus terrestris: can enhance libido and has beneficial effects on semen parameters such as count, motility, and morphology.

L-Carnitine and L-Cysteine: both play a key role in sperm metabolism by providing readily available energy for use by spermatozoa, which positively affects sperm motility, maturation, and the spermatogenic process.

L-arginine: has been proven to increase sperm viscosity and volume. It also helps with erectile dysfunction.

Saffron: significantly improved erectile function, libido, and overall sexual satisfaction and reduced sex-related pain.

Glutathione: in particular can improve sperm quality and possibly increase your chances of conceiving.

Taurine: plays an important role in male reproduction, including antioxidation, membrane stabilization, stimulation of sexual hormone secretion, and elevation of testicular marker enzymes.

Omega 3: improves overall male reproductive health and has protective antioxidant effects.

Co-Enzyme Q10: is implicated in mitochondrial energy flow, which is important in sperm maturation.

Selenium: contributes to the morphology of sperm as well as its mobility, which means selenium not only helps sperm cells grow to a good size and shape but also helps them swim, which are key factors in normal conception.

Zinc: plays a key role in testicular function, spermatozoa and oxygen consumption and may help regulate intratesticular testosterone levels. It enhances the immune system and significantly improves sperm count in combination with folic acid.

Folic acid: is associated with a statistically significant reduction in the frequency of sperm abnormalities in healthy males. It supports overall male reproductive system health.

Vitamins C and E: are essential antioxidants, inhibiting free radical-induced damage to cell membranes and decreasing seminal reactive oxidative species (ROS).

Supplement Facts

Serving Size: 3 Capsules
Servings Per Container:30

Amount Per Serving	
Vitamin A (as Beta Carotene)	1,500mcg
Vitamin C (as Ascorbic Acid)	180mg
Vitamin E (D-Alpha Tocopheryl Succinate)	100mg
Thiamin (as Thiamine HCl)	3mg
Riboflavin	3mg
Vitamin B6 (as Pyridoxine HCl)	25mg
Folate	1,000 mcg DFE
Vitamin B12 (as Methylcobalamin)	500mcg
Biotin	600mcg
Iodine (from Kelp)	150mcg
Magnesium (as Citrate)	25mg
Zinc (as Gluconate)	25mg
Selenium (as Selenomethionine)	200mcg
Copper (as Gluconate)	2mg
Manganese (as Amino Acid Chelate)	2mg
L-Carnitine Tartrate	500mg
Tribulus Terrestris Powder (Whole Plant)	300mg
L-Arginine	250mg
Omega-3	100mg
Coenzyme Q10 (CoQ10)	100mg
L-Cysteine	60mg
Glutathione	45mg
Taurine	40mg
L-Methionine	20mg
Saffron Powder (Whole Plant)	5mg
Vtamin K2 (as Menaquinone)	80mcg

** Daily Value not established

Other Ingredients: Methylcellulose Capsule
